

“Delivering SIF® Certified Application and Professional Services for Successful Ed-Fi Implementations”

Ed-Fi dashboards empower educators with real-time, actionable information on every student in their classroom, school or district. To accomplish this, Ed-Fi requires the integration and organization of raw education data and information from multiple data sources so it can be sifted, analyzed and put to use. To facilitate education enterprises in achieving a successful implementation of the Ed-Fi dashboards, ProActive School offers a broad range of both Application and Professional Services.

SIF® CERTIFIED

Ed-Fi Application services utilize a certified SIF® 2 Enabled Application.

STANDARDS SUPPORTED

- Ed-Fi 1.1, 1.2
- SIF® US: 2.0r1 through 3.0
- SIF® AU: 1.0 through 1.3
- SIF® UK: 1.0 through 1.4
